

CRITICAL THINKING AND PROBLEM SOLVING

The ability to clearly reason through problems and to present arguments in a logical and compelling way has become a key skill for survival in today's public sector environment. Leaders must be sharp critical thinkers who can size up the situation, realise the potential where others may not, and seize opportunities through critical thinking decision-making and problem solving.

Content

- Understanding critical thinking.
- Where do other types of thinking fit in?
- The critical thinking process.
- A critical thinker's skill set.
- Creating explanations.
- Dealing with assumptions.
