

INTRODUCTION TO SUPERVISION/MANAGEMENT

This course is designed to give participants an introduction to the new world of supervision and management and also to provide participants with foundational models and approaches to supervision and management.

Content

- Exploring the transition – what changes.
- Introduction to management and supervision models.
- Myths and misconceptions about supervision and management.
- Supervision & Management:
The Performance perspective (the work).
The development perspective (teams and staff).
- Situational Leadership.
- Introduction to basic financial management.

Outcomes

- Greater awareness of what is reasonably expected of supervisors and managers.
- Understanding of foundational models that can be applied to management and supervision.
- Introduction to further areas of development that may assist you in your management journey.

Who Should Attend

People new to supervision and management or people preparing to become supervisors and managers.

Benefits to you and your organisation

- Provide a solid range of foundational skills to assist in new role, along with a safe environment to explore your new role.
- Share your journey with others in similar stages of their career.
