

MANAGING YOUR PROJECT

Develop the practical skills, tools and knowledge needed for planning, controlling and contributing to projects within your own organisation and beyond.

* Participants are requested to bring a current or future project with them.

Content

- Project Lifecycle.
- Project Justification & Design (Logic, Scope, Who).
- Project Planning (Schedule, Budget, Risk).
- Project Delivery (Tracking, Adapting, Completing).
- Project Articulation.

Outcomes

- Gain a working knowledge and practical understanding of the nature of public sector projects and the fundamental elements of project management.
- Work effectively within the project lifecycle, engaging the necessary actions from initiation to evaluation.
- Apply proven scoping and planning techniques to projects

Who Should Attend

This course is designed for those who might have been exposed to project management but are still at an introductory level. It will suit those who need a refresher on the basics of project management or want to improve their knowledge and learn some systems to perform more efficiently.

Benefits to you and your organisation

- Better understand your project requirements to achieve greater project success and understanding in your agency/organisation.
- Improved capability of staff will create project efficiencies in your agency/organisation.
