

STRATEGIC THINKING

Strategic thinking is essential for all leaders and is necessary to create smart strategies and identify improvements. This workshop is ideal for those who are ready to take the lead in the workplace and advance their strategic thinking.

Content

- An introduction to different perspectives of looking at an organisation.
- A model for strategic thinking.
- The distinction between strategic planning and strategic thinking.
- A model for considering strategy and change.
- How to apply strategic thinking as part of planning and policy development and the different types of intelligence that contribute to strategic thinking.

Outcomes

- Understand key concepts underlying strategic thinking.
- Understand a range of different perspectives on thinking about organisations.
- Access models designed to assist you in strategic thinking.

Who Should Attend

This course is designed for people looking to develop skills in strategic thinking. It will suit managers, team leaders, and supervisors for whom planning is an essential ingredient to the smooth operations of their unit and the optimal utilisation of their resources.

Benefits to you and your organisation

- You will be introduced to models that you can apply to evaluate and enhance your strategic thinking.
- You will gain a broader approach to problem solving by applying strategic thinking.
