

MANAGING BUDGETS AND FINANCIAL PLANS

This popular short course held over 2 half days provides the fundamental elements of developing, contributing to, and managing budgets within the government budgeting framework.

Content

- Where budgeting fits as part of financial management.
- Government budgeting frameworks and processes.
- An introduction to contemporary budgeting concepts and practice.
- Dynamics of the relationship between operational performance and financial performance.
- Information requirements for budgeting.
- Difference between an accrual budget and a cash budget.
- Monitoring and managing the budget.

Outcomes

- Gain a clear understanding of the fundamental budgeting concepts and processes.
- Learn to apply contemporary budgeting principles to monitor and report on budgets and understand government budgeting processes.
- Understand how to manage your budget consistently with the whole of government processes.

Who Should Attend

This course is suited to managers and executives with budget and cost centre responsibilities, or members of agencies or business unit finance teams needing improved budgeting knowledge and skills.

Benefits to You and Your Organisation

- Helps you understand how the whole of government budget processes work.
- Provides practical tips to developing and controlling budgets.
- Understand and clarify financial terms and jargon.
- Better quality budget bids and involvement in the budget process.
- Share your journey with others in similar stages of their career.
